Mr. Aaron Weiner, Facility General Manager
Ben Weitsman of Rochester LLC/
Weitsman Rochester Realty, LLC
80 Steel Street
Rochester, NY 14606

Re: 80 Steel Street Site, Rochester, New York

Dear Mr. Weiner:

This is in response to the January 16, 2014 correspondence, submitted by O'Brien & Gere Engineers, Inc. (O'Brien & Gere) on behalf of Ben Weitsman of Rochester LLC and Weitsman Rochester Realty, LLC, regarding the polychlorinated biphenyl (PCB) cleanup at the 80 Steel Street Site in Rochester, New York. O'Brien & Gere's correspondence requests modification to the remediation schedule that was previously approved by the United States Environmental Protection Agency (EPA) on October 7, 2014. The reason for the request is that field work has been postponed with the onset of winter weather. PCB remediation activities are anticipated to resume in March or April 2015, with completion of work approximately eight weeks afterwards.

Please be advised that EPA hereby approves this request. Should you have any questions concerning this matter, please contact James S. Haklar at (732) 906-6817 or at haklar.james@epa.gov.

Sincerely yours,

A handwritten signature in blue ink, which appears to read "JG Gorman", is written over the typed name.

John Gorman, Chief
Pesticides and Toxic Substances Branch
